BACHELOR OF TECHNOLOGY

The Bachelor of Technology (BTech) Programmes are part-time direct honours degree programmes, offered in partnership with NUS School of Computing and Faculty of Engineering and specially tailored for working adults with diplomas looking to upgrade or make a career change. It is available in the following fields:

Computing Programmes **NEW!**

- Business Analytics
- Cybersecurity
- Software Engineering

Engineering Programmes

- Electronics Engineering
- Mechanical Engineering
- Industrial & Management Engineering
 - Civil Engineering
- Supply Chain Management **NEW!**

UNDERGRADUATE CERTIFICATE COURSES

Undergraduate Certificate (UGC) courses are short specialisation courses introduced for working adults who wish to acquire higher problem solving skills and knowledge relevant to their industry. Credits attained through completion of these UGCs can be stacked towards the fulfilment of the related BTech degree. UGCs are available in the fields of Computing and Engineering.

August 2018 Intake - Applications invited from 1 December 2017 to 14 February 2018

WHY NUS SCALE?

NUS SCALE offers adult learners opportunities to acquire new knowledge and latest skills in use at the workplace today.

SCALE has unparalleled access to the multi-disciplinary expertise of 16 other NUS Faculties and Schools.

With technology-enhanced learning, SCALE enables working adults to scale up or re-skill at their own pace and time.
